---

Jonathan:

I tried to get hold of you by phone but your message box is full. Anyway, I was trying to get hold of you to follow up on the emails that I sent to you about:

1. Status of Tank 16;
2. Letter Requesting EPA Account Replenishment from NORCO and Lazarus' understanding of how this was to work;

On the latter issue, I think it is wise for you guys (NORCO and Lazarus) to set up a meeting with the EPA and get this hammered out so that everyone is on the same page as to how the replenishment is to work. At the same time, you guys need to talk about and be ready to implement the remainder of the RIFS if you are able to convince EPA to allow you guys to do it. I know our guys are moving forward and are in the negotiation stages with the EPA contractor to complete the work. Then again, it may be best to allow the EPA to finish out the RIFS work but you don't have control of the effort or the cost.

Thanks

Gary Moore
